

SCOOP PLOW

HIGH-PERFORMANCE TRIP-EDGE

- *20° Fixed-angle outer ends*
- *Conventional plow weight and simplicity*
- *V-Plow capacity and efficiency*

The Ultimate Plow For Professional Use

Move snow more efficiently with a Hiniker trip-edge Scoop plow. The unique concave shape *captures* snow, providing greater capacity, less spillage, and faster, more efficient plowing.

◀ Concave shape captures snow to efficiently clear lots and parking areas. Angles left or right for conventional plowing.

Outer end is angled forward at 50° in full left or right position, reducing high-side spillage.

HINIKER HIGH-PERFORMANCE SCOOP PLOW

High-Clearance 3-Section Trip-Edge 9-inch high pivot point provides maximum protection. Each section trips independently for smoother plowing, with less stress on the plow.

Versatile and Efficient Unique concave scoop moldboard captures and moves snow—also allows conventional angled plowing.

Easy to Use Controller Convenient, compact fingertip control mounts anywhere or can be hand held.

Optional Rubber Cutting Edge

Optional Poly Snow Deflector

1/4-inch thick HMW low-friction polyethylene moldboard never needs refinishing.

Trouble-free compression-type trip springs.

Twelve (8') or fourteen (9') laser-cut ribs strengthen the moldboard frame.

Hydraulic scissors lift cuts transport bounce, eliminates chains.

"No-Pinch" Pivot prevents stones, ice or other debris from jamming the trip-edge. This allows for the full return of the trip-edge every time.

Cast iron skid shoes are standard equipment.

Horizontal-truss moldboard frame provides exceptional resistance to bending and bowing.

HINIKER Specifications:

BLADE WIDTH	8'	9'
BLADE HEIGHT	30"	30"
MOLDBOARD SURFACE	1/4" HMW Poly	1/4" HMW Poly
VERTICAL RIBS	12	14
COMPRESSION TRIP SPRINGS	4	4
CUTTING EDGE (HIGH CARBON 1084 STEEL)	3/8" x 6"	3/8" x 6"
POWER ANGLING RAMS	1 1/2" x 10"	1 1/2" x 10"
WEIGHT (NET OF TRUCK MOUNTED HARDWARE)	764 lb.*	799 lb.*

Quick Hitch MOUNTING SYSTEM

SPEED, EASE, & SIMPLICITY

The Hiniker Quick Hitch is the fastest plow mounting system available! The self-aligning drive-in mount lets you connect your Hiniker plow in seconds. This eliminates manually lifting, pushing, and pulling the plow into place.

- 1 Drive truck forks into plow receiver
- 2 Pull lever to lock plow to truck & raise stand
- 3 Plug in connections & you're ready to roll!

Reverse the process to disconnect the entire plow assembly just as quickly, leaving it ready for the next snowfall. Because Hiniker makes it so easy to disconnect your plow, you'll save weight and wear on your truck when the plow is not needed.

WE RESERVE THE RIGHT TO AMEND THESE SPECIFICATIONS AT ANY TIME WITHOUT NOTICE. THE ONLY WARRANTY APPLICABLE IS OUR STANDARD WRITTEN WARRANTY. WE MAKE NO OTHER WARRANTY, EXPRESSED OR IMPLIED.
